

# GRAPHIC ERA HILL UNIVERSITY, DEHRADUN

## Profiling Sheet

**Q.1: Write your career objective.**

My career objective is to secure a challenging spot in a reputed org where I can enhance my skills, improve my knowledge for my career growth also while contributing to the org.

**Q.2: Why do you want to be an engineer? Elaborate reasons.**

I want to be an engineer because engineering allows me to solve real-world problem using logic, creativity and technology. From a young age, I have been curious about how things work. Whether it is machines, software, or everyday system around us. Engineering gives me the tool to transform the curiosity into practical solutions that improve people's lives.

**Q.3: Write about projects or internship you have done/ are doing along with the learning.**

The projects that I have done are Alumni Management system, during my II<sup>nd</sup> sem, Route sharing and optimisation system as a DSA project and weather prediction as a AIML projects. I have also done creating 2D Games Menu and sudoku solver etc. I have been currently working on 2 projects as a part of my PBL projects.

**Q.4: What would you consider a significant achievement in your life and why?**

I have many significant achievements in my life from childhood till now but one of the significant achievement that changed my thinking directions was when I played football a national level. It was a period where I started to think outside the box

**Q.5: Write about a failure of yours which you consider to share. What have you learned from it?**

Failure and success are part of life. Each failure gives us a important lessons. I would like to share my failure of not able to secure 1st prize at the inter school marathon 1000m where I came 2nd. It was a heartbreaking moment for me bcz I had worked so hard.

**Q.6: What are your strengths? Write one or two instances where you have demonstrated your strengths.**

My strength includes perseverance, self discipline and ability to stay calm under pressure. During the ~~accident~~ incidents where I came to high pressure like explaining a ~~non~~ technical term to a non technical person etc.

**Q.7: Write about your weaknesses. What are you doing to overcome your weaknesses?**

My weakness is that I sometimes lack the seriousness to a work or realises it very lately how important the work or task is for my success or growth. To overcome my weakness I usually try to perform tasks on certain time.

**Q.8: What is the most difficult moment that you have faced in your life so far? What qualities helped you to overcome the moment?**

The most difficult moment that I have faced in my life was when I had to choose to live with my parents or paternal aunts home. It was not a choice but a conclusion against my will due to my studies. The qualities that helped me overcome the moment was taking what was right for me.

**Q.9: Apart from academics, what else are you interested in?**

**Make a separate list in terms of extracurricular activities, sports and any other interests.**

Apart from academics I am interested in outdoor sports like football and cricket and indoor sports like chess, also I love to play videogames sometimes during my busy days.

-----

**Q.10: Give an example of an area, concept or thing that you are absolutely passionate about.**

I am passionate about programming and problem solving. Writing code to solve real life problem and optimising the solution excites me. It gives me satisfaction when logic turns into a working solution.

**Q.11: Describe yourself as an individual in 5 lines.**

I am a motivated and disciplined individual.  
I believe in continuous learning and self improvement.  
I am adaptable and open to new challenges.  
I value teamwork and responsibility.  
I strive to give my best in every task.

**Q.12: What kinds of people do you enjoy working with?**

I enjoy working with people who are positive, cooperative, and willing to learn. I prefer team members who communicate openly, respect others' opinion and focus on collective growth.

**Q.13: What kinds of people you don't want to work with?**

What would you do if they became your senior in your dream job?

I find it difficult to work with people who lack responsibility or teamwork. However if such person becomes my senior I would remain professional respectful, and focus on learning while maintaining positive attitude.

**Q.14: What do you expect from your first job? Prioritize and write in order.**

- 1 Learning opportunities
- 2 Supportive work environment
- 3 Professional growth
- 4 Job stability
- 5 Financial Independence

**Q.15: In the past year, what have you been dissatisfied about in your performance?**

In the past year, I felt I could have managed my time better and practiced more consistently. The realization helped me improve my planning and focus on regular improvement.

**Q.16: Rate yourself out of 5 in verbal communication. What are you doing to improve your communication skills?**

I rate myself 3.5 out of 5 in verbal communication. I am improving my communication skills by participating in discussion, practising presentation and interacting more confidently with peers.

Q.17: Who is your role model? What qualities of that person you would like to see in your personality and why?

My role model is my parents. Their discipline, honesty and dedication inspire me. I want to adopt their values of hard work, patience and integrity in my own personality.

Q.18: Write a few lines about your friends. Do you think they help/ may help you in achieving your goals? If yes, how? If no, why do you accompany them?

My friends are supportive and motivating. They encourage me to improve academically and personally. Their guidance and positive competition help me stay focused on my goals.

Q.19: Write 3 leadership qualities. How many do you possess? Write an instance where you have applied those qualities.

1. Responsibility

2. Decision Making

3. Team Coordination

I believe I possess all three. I applied these

qualitas during group projects by coordinating tasks  
helping teammates and ensuring timely completion

Q.20: So finally, tell us something more about yourself or  
introduce yourself.

I am an engineering student who is enthusiastic  
about learning & self development. I enjoy  
problem solving teamwork, and exploring  
new technologies. I aim to become a competent  
professional who contributes positively to society  
and the organisation I work with.
